-  T1

Notes:

Robe Robin T1s are displaying lable information incorrectly so are not labeled. See accompanying paperwork for details.

Lightwright not displaying univers information correctly. All dimmers are in univers 101, with the exception of the 6 dimmer Smart bar that powers the Balcony rail.

Box positions are Universe 102
Balcony rail is Universe 103
Over stage information is correct
FoH Bridge Univers is undetermined at this point (direct dmx line from console, not networked)

All lighting controlled via sACN networking (except direct line to FoH position)
DMX nodes are also in place but limit the user to just the in house dimmer universe 101
